Pages	:	4
Date	:	2016/8/1
Revision	:	2.0

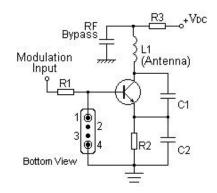

SFR350D

# Features

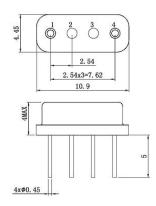

- 1-port Resonator
- Metal Case for SC04-06
- RoHS compatible
- Package Code SC04-06
- Electrostatic Sensitive Device(ESD)

# Application

Typical Low-Power Transmitter Application

# Package Dimensions (SC04-06)

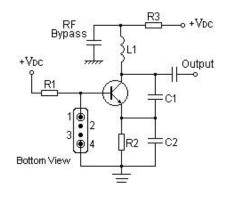

# Marking

- Contraction

#### Typical Local Oscillator Application

# **Pin Configuration**

1	Input/ Output		
4	Output/ Input		
2,3	Case Ground		

SF	Trademark
R	SAW Resonator
350D	Part number

# Notes

- 1. As a result of the particularity of inner structure of SAW products, it easy to be breakdown by electrostatic, so we should pay attention to **ESD protect** in the test.
- 2. **Static voltage** between signal load and ground may cause deterioration and destruction of the component. Please avoid static voltage.
- 3. **Ultrasonic cleaning** may cause deterioration and destruction of the component. Please avoid ultrasonic cleaning.
- 4. Only leads of component may be soldered. Please avoid soldering another part of component.
- 5. There is a close relationship between the device's performance and **matching network**. The specifications of this device are based on the test circuit shown above. L and C values may change depending on board layout. Values shown are intended as a guide only.
